The designs in this collection are non-woven 'paste the wall' wallpapers and are therefore easy to hang.

This wallpaper is the work of craftsmen and is worthy of maximum care and attention. To ensure a perfect finish, walls should be prepared correctly; smooth, dry and where necessary lined with lining paper.

We recommend using Cole & Son ready mixed Tub Paste. Packet pastes and vinyl adhesives are not suitable as they may cause surface staining or adhesion problems.

Hanging instructions are included with every roll and available online at www.cole-and-son.com. Please note separate instructions are available for our flocked wallpapers.

Whilst every effort is made to ensure that our wallpapers are manufactured to the highest standard, slight variations may occur during manufacture. Small textural print variations are part of the unique characteristics of such wallpapers.
